

Engineers Victors Over Army Sextet, 7-4, in Overtime

Sylvester, Daley, and Williams
Put on Strong Rushes
to Tie Score

GOODWIN ALSO STARS

Putting on a strong last period drive, the Technology hockey team scored three goals to tie their Army opponents and then duplicated this scoring in overtime, to win, 7-4, at West Point Saturday night.

Going into the last period the Engineers were behind, 2-0, as a result of Telford's pair of goals. Donohue soon put the West Pointers ahead by one more, but about five minutes later Williams broke the scoring ice for the Technology sextet. Telford, Army's star, quickly put another shot past Milliken to make victory apparently certain for his team, with only a little over ten minutes to play.

Duplin Orders Strong Offensive
Coach Duplin then ordered his men to put on a strong offensive to try to tie the score if possible. Paul Daley began to rush by scoring midway through the period. Williams then made the count 4-3, by shooting the puck into the Army nets at 14:46. Almost immediately afterwards Sylvester put in the goal that sent the game into overtime.

In the overtime Daley once again started a three goal drive, with Goodwin making the two additional scores.

The win was the Beavers' second of the season, as against four losses. The total of seven goals was the highest run up by the team this year.

Burglars Enter Two Dorm Rooms

Children Believed Responsible
for Taking Typewriters
and Other Items

Two rooms in the dormitories were robbed Saturday night by burglars who entered by breaking a window in one of the rooms. They stole typewriters, cameras, flashlights, a clock, and several other articles.

The rooms entered were the last two on the first floor of Goodale, inside the court. The burglars broke a pane of glass above the window lock, and unlocked and opened the window. The room entered was that of John G. Mooring, '35. He reported that the thieves ransacked his bureau, taking a typewriter, a camera, a pair of gloves, a flashlight, and several dozen handkerchiefs. They tried to take a radio but were prevented by an aerial wire. While doing so, however, they removed the plug of an electric clock, which fixed the time as 8:30.

The burglars then entered the adjoining room of August H. Schilling, '37, through an unlocked connecting door. Schilling at the time was in another room nearby, while Mooring was in Boston. A typewriter, a camera, a clock, a pair of gloves, and a sheet of stamps were reported stolen from Schilling's room.

Police who investigated stated that the footprints outside the window were small, indicating that the thieves were quite youthful. Central Square police are investigating the robbery.

Schilling did not notice anything amiss when he entered his room about 10:30, and it was not until Mooring returned later in the evening and saw the disordered condition of his room that the robbery was discovered.

SHOOTERS DEFEAT NORTHEASTERN

The Rifle Team won a comparatively easy match from Northeastern University by a score of 793-746 last Friday evening. The men shot two targets each, both standing. Of the five high men who counted in the match, Flood placed first, with 166 while Manager Hall came second with 165, followed closely by Thomas of Northeastern.

The difference between the scores, almost ten points per man, is a very wide margin in a rifle match, and the team is continuing the good work which it has done all term.

Registration Material Must be in by Friday

Students who have not yet returned their registration material to Room 3-106 have until Friday to do so. Failure to do this will result in a fine of \$5. Material will be accepted until 1 p. m., Friday, but no later without the fine.

Fees must be paid at Room 10-180 before 2 p. m., Thursday, February 1. If they are submitted by mail, the letter must be postmarked before 10 a. m. of January 30.

Freshman Dance to be February 23

Two Eleven Piece Orchestras Engaged; to be Formal Occasion

The annual Freshman Dance will be held on Friday, February 23, from 9:30 until 3:00. The dance is to be a formal occasion and will feature two well known and well liked orchestras, with Larry Funk and his Band of a Thousand Melodies playing until about midnight and Vin Gary and his Casa Madrid Orchestra continuing.

This year's freshman occasion is expected by the class officers and dance committee to surpass all former such affairs. Tickets at the price of \$2.25 a couple will be on sale by the end of the week in the main lobby and by the members of the dance committee. The Class of '37 cordially invites members of all classes to attend.

Lary Funk, whose band will furnish the music for the former part of the dance, is distinguished in the East for his playing in well known night clubs and colleges. Although his usual winter location is in the Palais D'or in New York, he is at present at the Barclay Club in Boston. Lary has not been at Technology before but he is well known at many of the eastern colleges and he broadcasts regularly over the N. B. C. Network.

Vin Gary, with his eleven piece orchestra, is well known along the North Shore, especially in connection with fashionable summer resorts.

"REMINISCENCES" IS GILL'S SUBJECT IN SPEECH TODAY

Well Known Professor Will Talk at Tonight's Meeting of Chemical Society

Augustus H. Gill, '84, Professor of Technical Analysis, will give some of his "Reminiscences" at a meeting of the M. I. T. Chemical Society tonight at 7:30 p. m., in the Forris Jewett Moore Room (fourth floor, Building Six).

His talk will consist mainly of recollections concerning the early history of the Department of Chemistry at the Institute, and concerning some of his experiences as an expert in the chemical field.

His lecture should prove of interest to the society, since he has been active in Technology affairs as student, instructor, and professor, longer than any other person at the Institute. Among his "Reminiscences" he can recall when the number of men enrolled in Course V totalled only six and when there were less than fifty students in the graduating class.

Professor Gill was graduated from the Institute in 1884. After graduation he served on the instructing staff as assistant for three years at the elapse of which he further pursued his studies at the University of Leipzig, where, in 1890, he received the degree of Doctor of Philosophy. He then returned to the Institute and has been a member of the Faculty since that time.

Professor Gill is well known to many of the students as well as to the outside world. He has achieved a wide reputation as an expert in many scientific fields, and as a result has been summoned in a number of civil and criminal law cases. He has thus built up an extensive practice as consultant.

Engineer Cagers Beaten by Brown in Scoring Spree

Bruins Were Evenly Matched by Engineers Until Last Few Minutes

FRESHMEN ALSO BEATEN

Brown's crack basketball team, playing without Larry McGovern, its star forward, proved a stumbling-block to the Technology quintet last Saturday evening by ringing up a 48-31 victory in the last few minutes of play after Captain Gene O'Brien of the Engineers was forced out of the game with four personal fouls. In the preceding game, the Brown freshmen swamped the Technology yearlings 39-17.

Captain O'Brien Starts Scoring

Up until the time O'Brien was forced out, the game see-sawed back and forth, with Technology leading in the first part of the game. Captain O'Brien as usual started the scoring soon after the beginning of the game when he sank a field goal and a foul shot when the Brown guard fouled him in the act of shooting. Kennedy and Thornton sank long shots to send the Engineers further in the lead, but Brown gradually crept up until the score was tied at 9-9. With the score 15-14 in favor of Technology, Demo was sent in for Gauth and immediately sank a foul shot. Then O'Brien caged another basket from the floor to conclude the scoring for the first half. The half ended with both teams fighting to score and with Technology leading 18-14.

Bruins Spree as Engineers Weaken

Demo opened the scoring in the second half with a fine shot from the corner of the floor. The scoring was about even for awhile until with the Engineers leading 23-17, Brown sank four successive baskets to go into the lead 25-23, but Schneck, who had gone in for Murphy, soon tied the score again.

(Continued on Page 8)

Bull Session Recognized by Professor Roberts

The Bull Session, long popular pastime among the students of Technology, has at last received official recognition by one of the members of the faculty. In a class discussion in E21, European History, Professor Penfield Roberts gave voice to his opinion of the custom of a group of students holding a discussion on topics of the day.

"I think the bull session is one of the most educational of institutions at Technology," were the words of the Professor in praise.

No Admission Fee for Senior Dance

Al Starita's Orchestra Engaged to Provide Music for Exclusive Affair

As the seniors look forward with anticipation to their annual exclusive formal dance, to be held in Walker Memorial Friday, Jan. 12, final precautions are being taken by the committee to prevent underclassmen from crashing the affair. Al Starita's orchestra, already well-known to Tech dance-goers by virtue of his playing last year at the Senior Prom, and this year at the recent Boat Club Dance, has been engaged to furnish the music and entertainment.

The affair is an annual one, given free for Seniors only, and subsidized by funds from the Senior class treasury. Seniors will be given an opportunity to obtain their tickets on Wednesday, Thursday, and Friday in the Main Lobby from 8:30 to 9, or from 12 to 2. They will not be available at 5 o'clock, as previously announced. The tickets are non-transferable and only Seniors will be admitted at the door. To avoid embarrassment, underclassmen are advised.

(Continued on Page 4)

Redfield Proctor Put on Executive Committee of Corp.

To Take Elihu Thomson's Place Until He Recovers From Illness

WAS VERMONT GOVERNOR

The appointment of Redfield Proctor, former governor of Vermont, to the executive committee of the Corporation of Technology was announced last night. Mr. Proctor will serve on the committee during the absence of Professor Elihu Thomson, who is expected to return soon to his duties on the Corporation following an illness from which he is now recovering.

President of Alumni Association

Mr. Proctor has served as a term member of the Corporation since 1924. He is president of the Technology Alumni Association and a former president of the New England Council, and for many years has been a prominent figure in New England politics, business, and education.

Born in Proctor, Vt., in 1878, he was graduated from Technology in 1902. He holds the degrees of master of science and doctor of laws from the University of Vermont. He was also awarded a doctorate by Middlebury College, where he is chairman of the board of trustees.

Mr. Proctor served as a member of the Vermont House of Representatives during 1912 and 1917, and in the state senate from 1917 to 1919. He was elected governor of Vermont in 1923.

Following his graduation from Technology, Dr. Proctor entered practice as a mechanical engineer. Today he is president of the Proctor Trust Company, vice-president of the Vermont Marble Company, and a director of the National Shawmut Bank of Boston and of the United States Chamber of Commerce.

Wrestling Team Victorious, 15-9

No Falls Scored as Engineers Top Brown; Freshmen Lose by 18-16

Showing great improvement over the form displayed in the opening meet against Harvard, the Technology varsity wrestling team won its first victory of the season at Providence last Saturday evening, by defeating Brown, 15 to 9. In a preliminary contest, the promising freshman team was nosed out by the Bruin yearlings, 18 to 16.

The varsity match was unusual in that not a single fall was registered, all eight bouts being won on time advantages. Harold George and Harold Oshry, the latter wrestling for the first time this season, won their bouts very easily, as did Marderosian and George McCaughan, 175-pounder. Eric Isbister, wrestling in the 155-pound class against Staniels, erstwhile freshman champion, was in difficulty at the start but finished up in complete control of his opponent.

Poole Defeated in Overtime

Captain Frank Poole lost in an overtime match to Impagliazzo of the Bears, whom he managed to throw last year when they met in the Hangar Gym. Ed Boyan, 145 pounds, and Tom Graham, heavyweight and crew man, were the others to be defeated, but each one put up a good battle. Both men are new to varsity competition this year.

After winning the first three matches and taking a 13-0 lead, the Engineer freshmen bowed in the heavier bouts. Not until the final contest, when Cestoni was thrown by Saklad, was the issue decided.

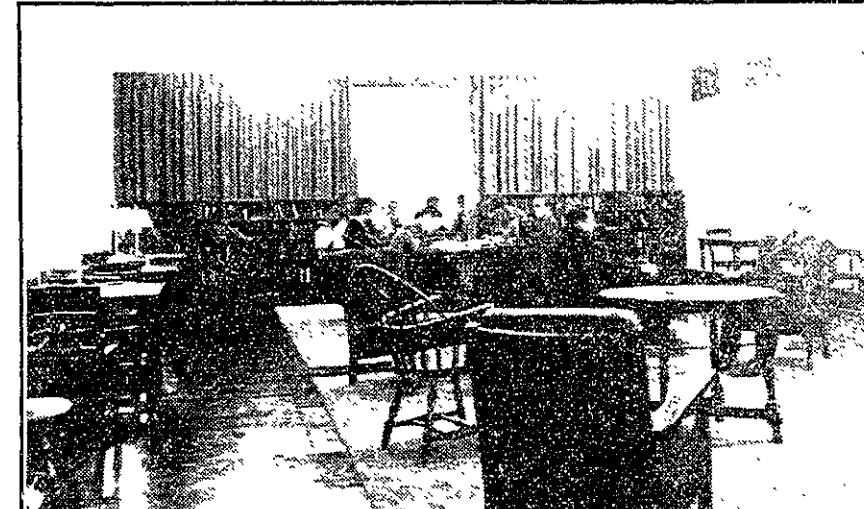

The next meet is scheduled for this Friday afternoon, when Technology

(Continued on Page 3)

T. C. A. FRESHMAN CABINET CHOSEN

Of the sixteen freshmen who came out for the T. C. A. last October the following officers have been elected to the Freshman cabinet: Josiah S. Heal, '37, president; Reland B. Westgate, '37, secretary; and Emory G. Hukill, '37, treasurer. Until now, the bi-weekly meetings of the cabinet have been supervised by Hal L. Bemis, '35, but from now on the officers will have complete charge of the work.

New Commuters' Lounging Room Which Was Opened Yesterday

COMMUTERS 5:15 SOCIETY HOLDS OPEN HOUSE AT NEW CLUB ROOM

Redecorated Lounge in Base- ment of Walker Memorial was Opened Yesterday; Contains Tables for Study; Also Lunch- room in Rear

For the first time the commuting students of Technology have a room for themselves. At noon yesterday the Commuters' 5:15 Club opened their clubroom in the basement of Walker Memorial. Although organized only last March, because it represents such a large portion of the student body the club has obtained the use of the old billiards room which has been redecorated to make a combined lunch and club room.

In order to give prospective members an opportunity to inspect the room, open house will be held until the end of the term. All commuters have been invited to avail themselves of the lunch, study and reading tables. Books from Walker Library may be used in the room. Those who wish to join may sign up at the desk. The membership fee is 50c.

Last March, Richard L. Fossett, '38, then president of the Senior Class; Edward S. Goodridge, '33, who

later became first president of the Commuters' Association; and William E. Rand, '33, were appointed a committee to form the club. At first local clubs were formed in the suburban communities. Later, they united by adopting a constitution. Although this was not ratified until April, the club held a dance on the steamship "Mayflower" and several supper meetings at which the officers of the Institute spoke to the commuters.

The club is governed by a Board of Directors, composed of the leaders of local clubs, and the officers of the club. This body meets to rule the club, while the local clubs hold meetings every month to decide their own policies. In the past, these meetings have been held at the homes of members, but now they will be held in the club room.

Upon application to the Room Committee, the chairman of which is Gerald M. Golden, '35, the room may be obtained for the use of any non-conflicting meeting or dance.

This year's officers are: George P. Bentley, '33, President; George W. Bartlett, '35, Vice-President; Frederick W. Travers, '35, Secretary; John P. Carey, '35, Treasurer.

THE PROM GOES

BACK in 1930 when the Junior Prom returned to Walker Memorial for a stay of four years, THE TECH published an editorial which lauded the idea of bringing the Prom back to Technology. In that year the column stressed the need for more room to adequately house such a major social function, and expressed the hope that undergraduate use of Walker Memorial would bring before the Alumni a full realization of that acute need.

For four years now, dances, smokers, initiations, banquets and even Tech Show have adapted their requirements to the facilities available in this building. This year the Junior Prom Committee has decided to take its party elsewhere. Offers from Boston hotels were undoubtedly attractive to the Committee who felt that greater space, a wooden floor, and an atmosphere that was "something different" from the cafeteria in which many students eat their meals, would sell more tickets.

It is with regret, however, that we see the major social event of the season removed from Technology premises. Yet, it is a step that the Committee has found necessary, as they have stated, in order to successfully carry out their program. Attention is forcibly directed to the increasingly inadequate quarters of the present building. One day we shall see a different picture with all phases of student life lodged in Walker Memorial—spacious, impressive, adapted to every need. May we do all in our power to emphasize that picture and aid in the achievement of the reality.

WILL IS BACK

IN RETURNING to the air last Sunday night, Will Rogers brought home to the public a few more of those truths that hurt. Significant enough is it to note that in all his biting satire, Will never offends, always amuses.

But in the broadcast in question, he spoke of the late Calvin Coolidge, and in doing so led up to Mr. Hoover. It is a shame, said Rogers, that when we are through with a man who has spent four years or more of his life learning the machinery of our government, we banish him to total obscurity, where he sits, an onlooker. Will pointed out that men who get to be President of the United States get there for some good reason. He explained that the reason for these men dying soon after they leave the office is not because of overwork, but rather lack of work. They miss the hustle and strain that has been their lot for the major part of their lives. He added that it will probably be the case with Mr. Roosevelt when he leaves.

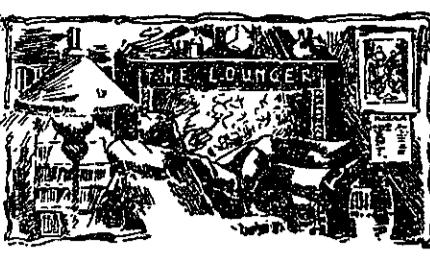

Will Rogers, as usual, is right.

COMMUTERS' PARADISE

THE lunch room and lounge of the Commuters' 5:15 club has at last opened. In the rear of the room a screened-off section has been filled with tables and chairs for use as a lunch-room. Aside from a slight paint smell which will undoubtedly wear off in a few weeks, the atmosphere is far superior to that of the locker rooms where many of the commuters now eat.

In the comfortable lounge there is a well-selected stock of books from the Memorial Walker library. Here there are upholstered chairs and a number of tables suitable for study. With the room as it is now, the commuters have an excellent center of activity for the first time. Instead of being confined to tables in the laboratories or libraries for study, they now have a room of their own where all of them may meet together to converse, read, and eat lunches.

Yesterday, when the room was first opened, the commuters gave a good response to the improvement which the Institute has presented to them. A sizeable crowd was to be found in the lunch-room eating, and even more taking advantage of the library and lounge. It is expected that as more students become acquainted with the room, even larger numbers will patronize it.

Better Late

Please don't get us wrong. We are all for these honorary societies, even if we never did belong to one. But in connection with the installation of the chapter of Sigma Xi, we see that the Institute Committee first made up its mind to apply for the chapter here, at the meeting of March 28, 1894. This is what comes of reading back numbers of THE TECH (See issue of April 4, 1894) and it just goes to show you.

—o—

Reproach

In the vain attempt to keep the reader's interest, whatever his mentality, we have a little anecdote which purports to come from the dear dead days when a certain one of these was in the fifth grade of the Waltham public schools.

According to all the evidence at hand, the teacher of the grade was technically qualified to be classified as a "witch." She threatened to throw little boys out of the window, she batted them upon their fat little behinds, when she thought it good for them, and above all she intimidated every soft and palpitating little soul until the terror thereof caused each to wake, wailing in the night.

Suddenly, in the midst of a quiet sleeping afternoon session, after one small reprobate had been sent weeping homewards, the door burst open and in charged an excited and articulate with rage old biddy, in short the sinner's mother. She hustled up to the teacher and pre-emptorily busted her one on the nob with a convenient umbrella.

The teacher stood erect in all the dignity of her office and regarded her assailant coldly. Then she shook what is described as a long bony forefinger, in her most disapproving and awe-inspiring manner. "Do you know," she said severely, "that I could have you put in the penitentiary for interrupting my class?"

—o—

Poet's Corner

Lounger sub Two has hit it, more or less on the button, again, although he insists that his efforts here would conveniently fill the column, and points out, with great earnestness, what a convenience it would be for Us.

(Apologies to Lewis Carroll)

"Is it wrong, dear sir," the young man said,
"To assume at your age that you know
All in this world that there is to be known,
And still more the older you grow?"

"In my youth, young man," the professor replied,
"I knew nothing at all—even less,
And the only way I could save my young hide
Was to try to get by on a guess."

"But now that I'm old and have students myself,
I pretend that I've always been bright,
And I talk such deep things in my classes, you see,
I've convinced myself that I'm right."

—o—

Thanx, Santa

We extend our heartiest thanks to the commuters who have at last made it possible for the Lounger to have a lounge handy. However, we usually have our lounge about noon time.

AS WE SEE THE MOVIES

RKO KEITH'S BOSTON

The chief advertisement for the Boston's show is Amos and Andy in person, but the program does not depend on them for all of its appeal. The entire presentation was good light amusement, excellent if you are a vaudeville lover. In this part of the program were some good acts—if you like dancing that is different, the Variety Four do a good job, and Sibyl Bowen does some amusing impersonations of Dietrich and Garbo. Amos and Andy, while they satisfy one's curiosity and therefore please, have a short and not very distinctive act.

The feature picture was likewise amusing, with no particularly outstanding points. Titled "Fog," and based on the Saturday Evening Post story of the same name, it is good murder mystery entertainment. Reginald Denny and Mary Brian give their usual performance and the thrills depend on a spiritualist scene in which the medium looks like Elizabeth Arden of cosmetic fame. There is the usual comedy relief detective, but the picture is entertaining, nevertheless.

WILSON COMPTON DISCUSSES N. R. A. AT TECHNOLOGY

Brother of Dr. K. T. Compton Says Code Removes Causes of Depression

"The N.R.A. has brought about regulated individualism," held Dr. Wilson Compton (brother of President Karl T. Compton of Technology), general manager of the National Lumber Manufacturers' Association of Washington, in an address presented at the Institute on New Year's Day.

That the National Recovery Act is fast becoming a demonstration in outgrowth from the experimental stage, that the Act is removing the causes of the depression in addition to relieving it, and that the plan of industrial regulation under the Recovery Act presents a great chance for a combination of sound industrial programs and right persons were the high points in Dr. Compton's discussion.

Difficult problems of industrial code administration may be divided into two classes, deliberate and orderly planning of industry, and "administration of compliances," finds Dr. Compton after a study and analysis in the field.

The Recovery Act has already had the visible effect of inspiring men to do their thinking for themselves rather than, as before, buying it ready made," said the speaker, reminding his listeners that that "uncontrolled individualism, as manifested in the past decade, has failed."

HOLD OPEN FORUM ON RECOVERY ACT

Principles of N. I. R. A. Will be Topic of Discussion

An open forum discussion on the principles embodied in the N.I.R.A. will be conducted Friday afternoon in Walker under the auspices of Technology's newly-formed Debating Society.

Four short four-minute speeches will be delivered by members of the Society on the topic, "Resolved: That the principles embodied in the National Industrial Recovery Act should be adopted as a permanent feature of the United States Government." Following the speeches the topic will be thrown open for general discussion, in which non-members as well as members may participate.

Discussions such as this one will be a regular feature of the Society's meetings. Aside from providing an opportunity for general discussion, these meetings will give the members of the Society training in both prepared and extemporaneous speaking which will prove valuable in the debates now being arranged.

The affirmative side of Friday's discussion will be upheld by Philip Scartio and Paul Stevens. The negative will be presented by Paul Vogel and Will Lyons. Leonard A. Seder, president of the Society, will be chairman of the discussion. The meeting will be held in the East Lounge. All those interested are invited to attend and participate in the discussion.

RKO KEITH'S

"Flying Down to Rio"

If you like the musical comedy extravaganza placed upon the screen, it is something you will like. Dolores Del Rio becomes her rôle and costume most effectively, and is ably supported by the tricky dancing of Fred Astaire with Ginger Rogers.

Of particular interest and appeal is the dance and music called "Carioca," whose rhythm and tune are as catchy as the name. A cross between the rhumba and the tango, it sets the feet twitching.

Many of the gags are too subtle for the audience, more's the pity, so be on your toes. There is to be guarded against the engineer's natural discomfort at seeing a plane flying about with forty odd chorus girls spoiling the lift of the wing, by dancing on it. But we think you'll like it.

S. T. M.

Brother Alpha

This week we were working on this new movement called Science in the Service of Politics, and we have practically perfected this new test of the Intensity of Distribution of Radical Propaganda in a Neutral Field.

The idea is, you ask the Testee, "Does grass grow longer for a Corporation than for the Proletariat?" and when he says "Yes," you say, "How much longer?" Then he holds out his hands to show how much, and you measure it. Then you read him this Radical Propaganda, and ask him again. We tried this Declaration of Independence on Brother Alpha like that. Both times he held out his arms just as far as he could stretch, so we are able to state definitely that this Declaration is not Un-American, as so many previous investigators have alleged.

Of course the interesting point is that grass doesn't grow so long for a Corporation. They are always taking it up and planting it somewhere else, on account of the Widening of Executive Vision as it envisages the Broader Horizons of the New Day.

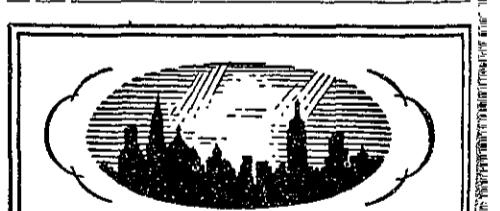

This Week in Walker

This Romain Rolland his *End of a World* is bound to be anyhow of interest to those of us who remember Annette and Sylvie, and to those of us who would have finished reading *Jean Christophe* if we hadn't had so much work to do on this *Anthony Adverse*. Rolland's world all went to pieces—the whole vineyard torn up by bands of starlings—"both parties, the men of action and those of theory, were crassly ignorant of the living reality, of the organism of the giant state of the day, of their respiratory and digestive apparatus, of their daily economic needs," a rush to the exit—dancing, sport, travel, women, gambling, oblivion—flight, flight. Rolland has joined the Association of Revolutionary Writers and Artists, and publishes in *Die Neue Weltbühne*, now driven to appear in Prague and Paris. There should be a quiet place where artists could work, but what's the use if they have to worry about Outrages? The best part of the book is that Annette is in it. She still keeps things human.

Lofty Highbrow Ladies who keep Personal Bookshops say there isn't much in this. J. B. Priestly his *Albert Grows Through*. That is because it is the most masculine book since Rostand's *Chanteclair*. Absolutely shows them up, what we mean. Of course, being supremely masculine, it is also supremely silly. Because this Rostand Film *Stacy* *Felicity* *Storm* is always turning up somewhere, among the Rustlers of Red Gulch, in the Kingdom of Moldavia at Micky Baloney's Road-house, and at the Towers with Meadows the Butler. She is always disguised as a Heroine and asking Albert to rescue her Brother. And that's all there is to life anyhow, aside from the Job.

After we listened to those faint brave voices coming from Byrd's Ship and all the stars and the waves over it or something, it was almost impossible to prevent Brother Alpha from killing up his gown and streaking out for the Blue Hills, to make the Midwinter Range Pilgrimage with the Field and Forest Club. The best we could do as a substitute was this Sven Hedin his *Riddles of the Gobi*. It is better than the book on *Jehol*, and altogether the charm of Marco Polo is over it. If only this Sven Hedin know what to leave out! People who want to know what this End of a World has done to China should read about the murder of Governor-General Yang and the suicide of the Chinese student Ma.

This *Glory* by Francis Stuart may look like a novel, but it is really what the French call Pure Poetry. It is full of Yellow Perils and the Lust for Power, but nobody would know it. Because a man is interested only in Mairead O'Byrne, where she carves out the empire of her soul.

PREFERRED

by TECH

And by Harvard, Yale and the rest. If they're from leading colleges, you'll most likely find them at The New Weston. Location in the fashionable center (near clubs, smart shops and theatres) is one reason; another, the comfortable good taste of quiet rooms.

To say nothing of French cuisine, the jolly English Cocktail Room, reasonable rates and week-end discounts to undergraduates who present this advt.

Varsity Mermen Lose to Amherst

Freshmen Face Brookline Today
With Dodge Favored to Win
in Sprints

A strong Amherst team gave the varsity mermen their second set-back of the year Saturday afternoon, holding the Engineers to two first places, as they took the meet, 55 to 22. The meet marked the opening of the season for the Amherst natators.

Bancroft of Amherst was the individual star of the meet, taking two firsts, in the 220 and 440-yard free-styles, and defeating Captain Vaughan in the latter race. For Technology, DuRoss turned in a good race in the 50-yard free-style, while Muller and Vonnegut finished easily in the first and second positions in the 200-yard breast-stroke.

The feature of the meet was the medley relay, in which the Lord Jeffs set a new pool record of 3 minutes and 26.4 seconds. The free-style relay was extremely close, with the Technology natators leading up to the last man, when Repsold of Amherst edged the Technology anchor man.

Freshmen Face Brookline

This afternoon the yearlings face the Brookline High School swimmers at Brookline, where Cleon Dodge, sprint flash of the Engineer freshmen, is expected to repeat the victories he registered at the Harvard pool before the holidays. Coach Brown's team men will probably have a harder time in the distances and specialty events.

The varsity will attempt to duplicate the Bowdoin victory this Saturday, when they meet the Williams team at University Club.

The results of last Saturday's meet were as follows:

Medley Relay: Won by Amherst (Allen Nelson and Kelly). Time: 3m. 26.4s. 220-yard free-style: Bancroft (A); Buechner (A); Summers (T). Time: 2m. 35.4s. 50-yard free-style: DuRoss (T); Wisner (A); Mason (A). Time: 27s. Dives: Gross (A). 74.21 pts.; Lapidus (A). 63.55 pts.; Paige (T). 60.19 pts. 440-yard free-style: Bancroft (A); Vaughan (T); Buechner (A). Time: 5m. 51.4s. 150-yard back-stroke: Allen (A); Edmunds (T); Caughey (A). Time: 1m. 59.2s. 220-yard breast-stroke: Muller (T); Vonnegut (T); Whicher (A). Time: 3m. 28s. 100-yard free-style: Kelly (A); Repsold (A); Granberg (T). Time: 56.8s. 400-yard free-style relay: Won by Amherst (Wisner, Barnes, Tyler, Repsold). Time: 4m. 12s.

ENGINEERS BEATEN BY BROWN SCORING SPREE

(Continued from Page 1)

O'Brien then fouled Karaban while he was shooting and was put out of the game on foul, while Karaban managed to sink both of his shots. Demo on the next tap raced down the floor with the ball and sank another shot from under the basket to again tie the score at 27-27. After Karaban sank another shot from the floor, Demo sank a foul shot to cut Brown's lead to one point, but the Engineer attack was slowing up. Brown sank another basket and Garth capitalized on a foul shot to make Brown's lead 31-29. From then on Brown, led by Malkowski, who scored five baskets before the end of the game, went on a scoring spree and tallied twelve points in the short space of time before the final whistle. Denton with the last basket of the game, completed the scoring for Technology.

Two New Men Show Up Well

Bill Karaban, star football player for the Bruins, was the high scorer of the game with thirteen points, followed by his team-mate Malkowski, who made ten. O'Brien was third with eight, while the other leading scorers for the Engineers were Demo and Thornton. Two new men were brought to notice during the game who should prove valuable to the Engineers in the future. They were John Demo, '35, who played a good portion of the game at guard, and Red Schneck, '35, who substituted for Murphy at center. Demo was especially good.

Freshmen Easily Defeated

The freshman game was easily won by Brown. Captain Simpson played a good game for the Engineers but his work was to no avail against the strong Brown forwards.

The summary of the game follows:

	gls.	pts.	
Malkowski, r.f.	5	10	
Noonan	0	0	
Reed	1	2	
Floren, l.f.	1	2	
Gurk	0	0

ATHLETIC AWARDS ARE ANNOUNCED

Letters Are Given to Soccer and Cross Country Teams

The straight "T" athletic award was made to Morton M. Jenkins, '35, for his work on the 1933-34 Cross Country track team. Letter awards have also been made to the following members of the Soccer and Cross Country teams: Soccer — William Brockmann, '34; Kuo Y. Cheng, '35; Joseph Daleda, '34; George R. Forsburg, '35; John P. Hamilton, '36; Morten C. Hansen, '34; Theodore D. Hetzel, '34; Frederick G. Kaiser, '34; Emerson P. Kron, '34; Benigno M. Sanchez, '37; Kasmierz J. Winarski, '35; and Cross Country — John E. Talbert, '35; Clark Nichols, '35; John C. Barrett, '34; Ralph P. Ranger, '34.

Formerly the award was a shingle which authorized the receiver to purchase a letter; this year the M. I. T. A. A. is presenting both the shingle and the letter.

The letters mentioned above are awaiting claim at the Athletic Association office, but the claimant must appear in person.

WRESTLING TEAM IS VICTORIOUS BY 15-9

(Continued from Page 1)

plays host to the University of Rochester grapplers in the Hangar Gym.

Summaries of Saturday's matches:

Varsity Meet
Unlimited class—Olsen, Brown, defeated Graham, M. I. T. Referee's decision. Time advantage 3 minutes. 115-pound class—George, M. I. T., defeated Robbins, Brown. Referee's decision. Time advantage 9 minutes 42 seconds. 125-pound class—Marderosian, M. I. T., defeated Faligila, Brown. Referee's decision. Time advantage 5 minutes. 135-pound class—Oshry, M. I. T., defeated Zooloomian, Brown. Referee's decision. Time advantage 8 minutes 40 seconds. 145-pound class—Smith, Brown, defeated Boyan, M. I. T. Referee's decision. Time advantage 3 minutes 15 seconds. 155-pound class—Ishbister, M. I. T., defeated

Stanis, Brown. Referee's decision. Time advantage 4 minutes 45 seconds. 165-pound class—Impagliazzo, Brown, defeated Poole, M. I. T. Referee's decision. Time advantage 1 minute 51 seconds. 175-pound class—McCaghian, M. I. T., defeated Capasso, Brown. Referee's decision. Time advantage 5 minutes 20 seconds.

Freshman Meet
115-pound class—Noodman, M. I. T., defeated Beauile, Brown. Referee's decision. Time advantage 5 minutes 15 seconds.

125-pound class—Bartholomew, M. I. T., defeated Davis, Brown. Fall. Half Nelson and crotch hold. Time—4m. 38s.

135-pound class—Testa, M. I. T., defeated Basil, Brown. Fall. Half Nelson and crotch hold. Time—3m. 10s.

145-pound class—Miller, Brown, defeated Webb, M. I. T. Fall. Arm and body hold. Time—5m.

155-pound class—Johnson, Brown defeated Heal, M. I. T. Fall. Body and arm bar. Time—5m.

165-pound class—Pierce, Brown, defeated Baggerman, M. I. T. Referee's decision. Time advantage 1 minute 30 seconds.

175-pound class—Pelham, M. I. T., defeated Mangiante, Brown. Referee's decision. Time advantage 45 minutes 15 seconds.

Unlimited class—Saklad, Brown, defeated Castoni, M. I. T. Fall. Arm bar and body hold. Time—5m. 45s.

TECHNOLOGY SEXTET DEFEATS ARMY, 7-4

(Continued from Page 1)

Tomorrow the Engineers play their second game in a row away from home, meeting University of New Hampshire.

The summary of Saturday's game:

M. I. T.	ARMY
Johnson, l.w.	r.w. O'Neill
Notman, c.	c. Donohue
Thompson, r.w.	l.w. Telford
Hrones, l.d.	r.d. Simpson
Sylvester, r.d.	l.d. Lawlor
Milliken, g.	g. Vaunostrean
Army alternates—Saywer, Warner, Grohs, Snyder, Hollerman, M. I. T. alternates—Daley, Gaudwin, Williams, Mathias.	
1st period—Army, Telford, 3m. 15s.	
Army, Telford (Lawlor) 9m. 31s.	
Second period—No score.	
Third period—Army, Donohue, 3m. 6s.	
M. I. T., Williams, 7m. 11s.; Army, Telford (O'Neill), 8m. 59s.; M. I. T., Daley, 10m. 31s.; M. I. T., Williams, 14m. 46s.; M. I. T., Sylvester, 14m. 58s.	
Overtime period—M. I. T., Daley, 2m. 36s.; M. I. T., Goodwin, 3m. 17s.; M. I. T., Goodwin, 7m. 45s.	
Penalties—Notman, Lawlor, 2. Telford, Simpson, 2. Hrones, Gaudwin, 2. Daley, Williams. Referees—Alex Sayles and Walter Boyson.	

300-yard dash—Won by Dick Bell (ser); second, Paul Lipnick (4ft); second, Henry Runkle (2ft); third, Alfred Greenlaw (2ft); fourth, Francis Houghton (3ft). Time—6s.

300-yard run—Tie for first between Thomas Blair (20yd) and Eugene Cooper (18yd); third, Melville Hitchcock (18yd); fourth, Morton Jenkins (ser); tie for fifth between Herbert Schwartz (ser) and Ralph Guerke (20yd). Time—1m. 20s.

300 yards, first heat—Won by Alfred Greenlaw (ser); second, Robert Ponnella (5yds); third, Paul Lipnick (2yds); fourth, Henry Runkle (ser); fourth, Blair (5yds). Time—38s. Second heat—Won by Walter Wrigley (ser); second, Paul Roberts (3yds); third, Raymond Dresley (3yds); fourth, Edward Tibbets (4yds). Time—37.3-3.8s. Third heat—Won by Francis Houghton (gyd); second, Gordon Wilkes (5yd); third, Charles Hill (gyd); fourth, Roland Hanson (2yds).

300-yard final—Won by Wrigley; second, Houghton (5yds); third, Roberts (gyd); fourth, Wilkes (5yds); fourth, Greenlaw (Ser); fifth, Sabi (gyd). Time—35.4-5.8s.

Never do today what you can put off until tomorrow.

At John Hopkins University the seniors are compelled to take a course in the art of cooking.

DICK BELL WINNER IN DASH SATURDAY

Returns to Action After Long Layoff Due to Injury

The return of Captain Dick Bell to competition marked the second indoor handicap track meet of the season, which was conducted by Coach Oscar Heddle last Saturday afternoon. Bell, whose pulled tendon kept him from all but the first outdoor meet last spring, won the 50-yard dash from scratch over a large field.

Bob Mann and Walter Wrigley, veteran stars, were easily victorious in the 1000 and 300 yard runs, respectively. The summaries:

50-yard low hurdles—Won by Charles Hill (ser); second, Faatz (ser); third, Thomas McMahon (2yds). Time—7.2-5s.

1000-yard run—Won by Bob Mann (ser); second, tie between Leroy Hutchinson (100yds) and Thomas Lucas (40yds); fourth, Ernest Greenwood (70yds). Time—2m. 38s.

50-yard dash—Won by Dick Bell (ser); second, Paul Lipnick (4ft); second, Henry Runkle (2ft); third, Alfred Greenlaw (2ft); fourth, Francis Houghton (3ft). Time—6s.

300-yard run—Tie for first between Thomas Blair (20yd) and Eugene Cooper (18yd); third, Melville Hitchcock (18yd); fourth, Morton Jenkins (ser); tie for fifth between Herbert Schwartz (ser) and Ralph Guerke (20yd). Time—1m. 20s.

300 yards, first heat—Won by Alfred Greenlaw (ser); second, Robert Ponnella (5yds); third, Paul Lipnick (2yds); fourth, Henry Runkle (ser); fourth, Blair (5yds). Time—38s. Second heat—Won by Walter Wrigley (ser); second, Paul Roberts (3yds); third, Raymond Dresley (3yds); fourth, Edward Tibbets (4yds). Time—37.3-3.8s. Third heat—Won by Francis Houghton (gyd); second, Gordon Wilkes (5yd); third, Charles Hill (gyd); fourth, Roland Hanson (2yds).

300-yard final—Won by Wrigley; second, Houghton (5yds); third, Roberts (gyd); fourth, Wilkes (5yds); fourth, Greenlaw (Ser); fifth, Sabi (gyd). Time—35.4-5.8s.

Never do today what you can put off until tomorrow.

At John Hopkins University the seniors are compelled to take a course in the art of cooking.

Squash Team Wins Over Dartmouth

Initial Intercollegiate Meet Results in Victory for Engineer Team

The Technology squash team won its opening Intercollegiate League match last night when Coach Oscar Summers' charges defeated Dartmouth, 3-2. Lucas, seeded number one at the Institute, was unable to participate in the meet because of an injured hand but it is expected that he will return to action by the end of the week.

Last night's victory came as a result of wins handed in by Wood, Eder and Webb. Newman, who has been playing in place of Lucas, lost a close match to Noble of Dartmouth.

Also Defeats Harvard

Playing a regular Class B Match in the Massachusetts Squash Racquet Association league, the Technology team defeated a Harvard team, its second victory in three starts in the league. With a game scheduled this week against the Harvard Club, the leaders, the Technology team will have a chance to take the lead. The next Intercollegiate match will be played next Saturday against Yale. The results of last night's match are as follows: Noble (D) defeated Newman (T), 3-2; Wood (T) defeated Harrison (D), 3-0; Eder (T) defeated Chase (D), 3-1; Davis (D) defeated Ingalls (T), 3-1; Garon (T) defeated Webb (D), 3-0.

CALENDAR

Tuesday, January 9

5:00—Society of Automotive Engineers Dinner, Faculty Dining Room.
 6:00—Scabbard and Blade Dinner, North Hall, Walker Memorial.
 7:30—Chemical Society Meeting, Moore Room, Building 6.
 7:30—Cast Tryouts for Tech Show, East Lounge, Walker Memorial.
 7:30—Chorus Rehearsal for Tech Show, Walker Gym.
 8:00—Varsity Basketball, Lowell Textile, Hangar Gym.

Wednesday, January 10

5:00—Graduate Hall Club Dinner, North Hall, Walker Memorial.
 6:00—Soccer Team Dinner, Grill Room, Walker Memorial.
 8:00—Freshman Basketball, Harvard at Harvard.

Thursday, January 11

5:00—American Institute of Mining Engineers Meeting, Room 8-205.
 5:00—Massachusetts Safety Council Dinner, North Hall, Walker Memorial.
 5:00—Department of Humanities Dinner, Grill Room, Walker Memorial.
 5:20—Gym Interclass Meet, Walker Gym.

Tech Show to Pick
Entire Cast TodayTwelve Principal and Ten
Supporting Parts
to Be Filled

Cast try-outs for Tech Show will be held tomorrow evening in the East Lounge of Walker at 7:30. At this time the cast will be picked and parts given out. There will be twelve principal characters and about ten in the supporting cast. The try-outs will

be conducted by Professor William C. Greene, who is coaching the show.

Chorus to Rehearse Also

A chorus rehearsal will be held tomorrow at the same time, in Walker Gymnasium. Both cast and chorus will rehearse regularly Tuesday and Thursday from now on.

The chorus has been progressing unusually well. Langdon Matthews, the coach, has started the routines. He is much impressed with the way the men are learning. They have shown an unusual aptitude in picking up tap dancing.

Tech Show will be presented about the middle of March.

MILITARY SOCIETY
TO BE INSPECTED

At a dinner meeting of Scabbard and Blade tonight, Lt. John H. Sweatt will inspect the Technology Company, G Company of the 5th Regiment. Lt. Sweatt is inspector of the first corps area. The meeting, which is formal, will be held in the North Hall of Walker at 6:30. It will last three hours. About thirty members are expected.

The Technology Scabbard and Blade Society is a branch of the national military fraternity, choosing its members from the students in the advanced R. O. T. C. courses. Officers of the local company are: captain, Edgar B. Chiswell; 1st lieutenant, William E. Coleman; 2nd lieutenant, Raymond P. Holland, Jr.; 1st sergeant, Aaron Keever Redcay.

A. F. HORLE WILL
ADDRESS MINERSIs Chief Engineer of American
Refining Company

Ariel F. Horle, '26, chief mining engineer of the American Smelting and Refining Company in Mexico, will address the student chapter of the American Institute of Mining Engineers, Thursday, January 11, at 5 o'clock in Room 8-205.

Prospects for jobs and the best type of work men graduating in mining engineering should get into, will be discussed in his topic, "The Young Mining Engineer." His talk will be illustrated with several reels of motion pictures and some still pictures.

ADMISSION IS FREE
FOR SENIORS TO DANCE

(Continued from Page 1)
vised to refrain from attempting to crash.

Chaperones and Ushers Named
Chaperones for the affair will include: Mrs. Karl T. Compton, Dr. and Mrs. Vannevar Bush, Bursar and Mrs. Horace S. Ford, Dean and Mrs. Harold E. Lodbell. According to tradition the officers of the Junior Class will act as ushers.

Al Starita's orchestra is one of widespread fame on both sides of the Atlantic. For the past eight years he has been playing in London, England, and on the Continent. He and his orchestra have played at the Savoy Hotel, the Kit-Kat Club, and the Piccadilly Club.

Expenses Covered by Class Treasury

The expenses for the dance are covered by appropriations from the class treasury. According to a rule of the Institute, \$8 of each student's tuition is given to the Institute Committee, of which 44 cents are set aside as class dues. One-half of the total amount thus obtained is spent for the senior dance, while the remaining sum is used to help defray the expenses of Senior Week.

Refreshments, such as sandwiches and ice cream will be available at a minimum price.

Mr. Horle has done much work in prospecting and exploration in Mexico. Robert C. Becker, '34, president of the society, has invited anyone interested to attend.

Doctor Blake of the Biology department says there are five sexes: males, females, supermales, superfemales, and intersexes.

CORPORATION XV
PICKS ITINERARY
FOR ANNUAL TRIPTo Make Tour of Harbor of New
York; Recreation Is Provided
While in City

The itinerary of the annual Corporation XV industrial tour has been tentatively decided. It will include the Bush Terminal Company, which is the "father" of many small concerns; J. Walter Thomson, the largest advertising agency in New York; Macy's Department Store, the largest department store in New York, and a tour of New York Harbor.

This trip will differ from previous trips in that more attention will be given to providing recreation. Lunches in a Swedish and a Russian restaurant are planned. If enough sign up for the trip, the group will see one of New York's most popular musical comedies, "Gowns by Roberto," at no extra cost.

The trip will last from Monday, January 29, to Thursday, February 1. It will cost not over twenty dollars. The last day to sign up for the trip is Saturday, January 20. Sign-ups can be made in Room 1-181, where copies of the tentative itinerary may be obtained.

Luckies

Reach you fully packed

THE TOBACCO
DOES NOT SPILL OUT

Good tobaccos... real good tobaccos... that's the reason for Lucky Strike's fine, smooth quality. We use only the center leaves of the finest Turkish and domestic tobacco plants. Not the top leaves—because those are under-developed. Not the bottom leaves—because those are inferior in quality. We use only the center leaves—because these are the mildest leaves—fully ripe for perfect smoking. Only these choice tobaccos are used to make Luckies—so round, so firm, so fully packed—and no loose ends to spill out. That's why Luckies are always mild and smooth. That's why always "Luckies please". And don't forget—"It's toasted"—for throat protection—for finer taste.

The Metropolitan Opera
